BEAC Code of Conduct

The following provisions are designed not to constrain but rather to positively enhance a club member's experience in BEAC activities.

They are not simply rules to be followed, but rather guidelines learned from experience to convey clear expectations and avoid miscommunication and misunderstandings, and ultimately to help produce the best outcome for members.

Understanding and adhering to these guidelines is an inherent part of ongoing membership.

Behaviour and Etiquette

At all times during club gatherings, members are required to be courteous and considerate in both language and behaviour:

- Treating all members and their partners in an appropriate and respectful manner
- Making an effort to exude a positive attitude toward the club.
- Responding within stipulated timeframes to requests for RSVPs, payments and punctuality in attending club meetings.
- Respecting the roles of the Committee, including the voluntary effort and time they give to the club.
- Healthy and respectful discussion on improvements and initiatives is encouraged.

Etiquette pertaining to fortnightly club runs:

- Travelling in convoy to showcase the club's primary mandate: all historic-registered vehicles leave the stabling area first, followed by modern classic British and European vehicles, and finally everyday/non-British and European vehicles.
- Respecting the efforts made by each run organizer by going on the full run from the stabling area to the final venue.
- Members are encouraged to volunteer to organize one run per year.
